

## Values In Action

Induct employees into your brand culture.

### Overview

The Values we hold are our guiding principles that shape our life's actions and decisions. In this hyper competitive environment where performance is highly rewarded and sought after it is important to be reminded about a culture of high ethics. No performance is valued if it is not done with right levels of integrity. Knowing your own values and deciding on your professional code of conduct is imperative at all levels and beyond any professional titles.

### Learning Outcomes

This workshop intends to help learners decipher the meaning of values and how they guide us. It helps reflect on one's own core values and guiding principles while deciding on one's professional code of integrity. It also helps create alignment to the larger organizational value systems to ensure a sense of ownership and loyalty towards them.
