

Transformational Leadership

Overview

The best leaders inspire people to collaborate, innovate and strive for excellence and for that they need to practice optimism and inculcate core brand values in everyday happenstances. The role of efficient Transformational Leadership is needed than ever before. Its role is to identify the approach to change, guide individuals and organizations to commit to working together-towards specified goals.

Learning Outcomes

Transformational leadership is a workshop that provides tools to today's leaders to etch their own unique leadership personality & approach - aligned to the core brand principles. It helps introspect on their beliefs, their mindful state of mind, their strategic approach and their patterns of communication.
